

# **XB2-5-WP Revit Model Features**

1. These models use type catalogues so all sizes of the XB2-5-WP range using the same heating coil option (LPHW, electric or none) can be inserted using the same .rfa file (see Read Me file attached for further info)

**XB2-5-LWP.rfa** holds all the **L**PHW heater versions on the unit e.g. XB3-RLWP.

**XB2-5-EWP.rfa** holds all the **e**lectric heater versions on the unit e.g. XB3-REWP.

**XB2-5-NWP.rfa** holds all the **n**o heater versions on the unit e.g. XB3-RNWP.

Each model includes the following option in the Model Properties Category in the Properties Window

2. 'Show Access Clearance' allows you to show or hide the access clearance transparent area of the model
